

# General Conditional Major – Hot Mix Asphalt Plants

## Guidance For Requesting a Decrease in Reporting Frequency

- 1) When requesting a decrease in reporting frequency, compare your actual emissions during the latest 12 month period to the emission triggers in the chart below to determine the appropriate frequency.
- 2) Please note: The Department requires facilities to submit reports, in a timely manner, for at least twelve months before allowing a decreased reporting frequency. Compliance history is also considered when determining whether or not decreased reporting frequencies will be allowed.
- 3) Records of emergency and portable generator(s) use in hours per month are to be reported annually on a calendar year basis.

Parameter	Annual Reporting	Semiannual Reporting	Quarterly Reporting
Production Batch Mix Plants	Less than or equal to 162,860 tons per year	Greater than 162,860 but less than or equal to 325,720 tons per year	Greater than 325,720 tons per year
Production Drum Mix Plants	Less than or equal to 497,975 tons per year	Greater than 497,975 but less than or equal to 995,950 tons per year	Greater than 995,950 tons per year
